COURSE BROCHURE

AI-Assisted Project Controls

Project Management

Rising demand 2028

Code	Duration	Formats	Language	Certificate
PM-109	5 or 10 days	Classroom, live online, in-house, blended	English or Arabic	Certificate of completion

A practical project management course covering AI in project controls, schedule risk analytics and forecasting cost and progress. Run as a 5-day core or 10-day extended programme, in 16 cities, live online or in-house, and fully customisable for your team.

About this course

AI-Assisted Project Controls gives delegates a structured, practical understanding of AI in project controls and schedule risk analytics, then builds the skills to apply forecasting cost and progress, automated reporting and implementation in real work. Sessions are led by practitioners with at least 15 years in the field.

What you will learn

- AI in project controls
- Schedule risk analytics
- Forecasting cost and progress
- Automated reporting
- Implementation

Who should attend

Project managers, engineers, planners, contract administrators and PMO staff.

5-day course outline

Day 1	**AI in project controls**	Concepts, standards and terminology, with a diagnostic exercise to baseline the group.
Day 2	**Schedule risk analytics**	Methods and tools explained step by step, with worked examples from real operations.
Day 3	**Forecasting cost and progress**	Hands-on practice in small groups using realistic data, cases and templates.
Day 4	**Automated reporting**	Case studies of successes and failures, and how to apply the lessons in your organisation.
Day 5	**Implementation**	Integration exercise, final knowledge check and a personal action plan.

10-day extended programme

Includes the full 5-day outline, plus a second week of applied work:

Day 6	**Applied workshop: AI in project controls** — Deeper practice with your own data or site examples.
Day 7	**Applied workshop: Schedule risk analytics and forecasting cost and progress** — Group exercises that combine methods from week one.
Day 8	**Field case study: Automated reporting** — A detailed industry case worked through from start to finish.
Day 9	**Advanced practice: Implementation** — Tools, templates and checklists to take back to work.
Day 10	**Assessed project and presentation** — Each delegate presents an improvement plan and completes the final assessment.
