COURSE BROCHURE

Climate Risk and Scenario Analysis

Sustainability, ESG & Net Zero

Rising demand 2027

Code	Duration	Formats	Language	Certificate
SU-104	**5 or 10 days**	**Classroom, live online, in-house, blended**	**English or Arabic**	**Certificate of completion**

A practical sustainability, esg and net zero course covering physical and transition climate risks, scenario analysis methods and financial impact assessment. Run as a 5-day core or 10-day extended programme, in 16 cities, live online or in-house, and fully customisable for your team.

About this course

Climate Risk and Scenario Analysis gives delegates a structured, practical understanding of physical and transition climate risks and scenario analysis methods, then builds the skills to apply financial impact assessment, integrating climate risk into ERM and climate disclosure in real work. Sessions are led by practitioners with at least 15 years in the field.

What you will learn

- Physical and transition climate risks
- Scenario analysis methods
- Financial impact assessment
- Integrating climate risk into ERM
- Climate disclosure

Who should attend

Sustainability, HSE, finance, strategy and reporting professionals, and managers responsible for ESG and climate targets.

5-day course outline

Day 1	**Physical and transition climate risks**	Concepts, standards and terminology, with a diagnostic exercise to baseline the group.
Day 2	**Scenario analysis methods**	Methods and tools explained step by step, with worked examples from real operations.
Day 3	**Financial impact assessment**	Hands-on practice in small groups using realistic data, cases and templates.
Day 4	**Integrating climate risk into ERM**	Case studies of successes and failures, and how to apply the lessons in your organisation.
Day 5	**Climate disclosure**	Integration exercise, final knowledge check and a personal action plan.

10-day extended programme

Includes the full 5-day outline, plus a second week of applied work:

Day 6	**Applied workshop: Physical and transition climate risks** — Deeper practice with your own data or site examples.
Day 7	**Applied workshop: Scenario analysis methods and financial impact assessment** — Group exercises that combine methods from week one.
Day 8	**Field case study: Integrating climate risk into ERM** — A detailed industry case worked through from start to finish.
Day 9	**Advanced practice: Climate disclosure** — Tools, templates and checklists to take back to work.
Day 10	**Assessed project and presentation** — Each delegate presents an improvement plan and completes the final assessment.

Upcoming classroom dates

More dates, cities and live online sessions on request.
