Cost Accounting and Profitability Analysis

Finance & Accounting

Code	Duration	Formats	Language	Certificate
FA-111	**5 or 10 days**	**Classroom, live online, in-house, blended**	**English or Arabic**	**Certificate of completion**

A practical finance and accounting course covering cost accounting concepts and cost objects, job, process and activity-based costing and product and customer profitability analysis. Run as a 5-day core or 10-day extended programme, in 16 cities, live online or in-house, and fully customisable for your team.

About this course

Cost Accounting and Profitability Analysis gives delegates a structured, practical understanding of cost accounting concepts and cost objects and job, process and activity-based costing, then builds the skills to apply product and customer profitability analysis, cost-based and value-based pricing and management reporting for cost control in real work. Sessions are led by practitioners with at least 15 years in the field.

What you will learn

- Cost accounting concepts and cost objects
- Job, process and activity-based costing
- Product and customer profitability analysis
- Cost-based and value-based pricing
- Management reporting for cost control

Who should attend

Accountants, finance managers, auditors, analysts and non-finance managers who own budgets.

5-day course outline

Day 1	**Cost accounting concepts and cost objects**	Concepts, standards and terminology, with a diagnostic exercise to baseline the group.
Day 2	**Job, process and activity-based costing**	Methods and tools explained step by step, with worked examples from real operations.
Day 3	**Product and customer profitability analysis**	Hands-on practice in small groups using realistic data, cases and templates.
Day 4	**Cost-based and value-based pricing**	Case studies of successes and failures, and how to apply the lessons in your organisation.
Day 5	**Management reporting for cost control**	Integration exercise, final knowledge check and a personal action plan.

10-day extended programme

Includes the full 5-day outline, plus a second week of applied work:

Day 6	**Applied workshop: Cost accounting concepts and cost objects** — Deeper practice with your own data or site examples.
Day 7	**Applied workshop: Job, process and activity-based costing and product and customer profitability analysis** — Group exercises that combine methods from week one.
Day 8	**Field case study: Cost-based and value-based pricing** — A detailed industry case worked through from start to finish.
Day 9	**Advanced practice: Management reporting for cost control** — Tools, templates and checklists to take back to work.
Day 10	**Assessed project and presentation** — Each delegate presents an improvement plan and completes the final assessment.
