Code	Duration	Formats	Language	Certificate
DT-111	5 or 10 days	Classroom, live online, in-house, blended	English or Arabic	Certificate of completion

A practical digital, ai and cybersecurity course covering common cyber threats, security awareness behaviours and incident detection and response. Run as a 5-day core or 10-day extended programme, in 16 cities, live online or in-house, and fully customisable for your team.

About this course

Cybersecurity Awareness and Incident Response gives delegates a structured, practical understanding of common cyber threats and security awareness behaviours, then builds the skills to apply incident detection and response, recovery and lessons learned and building a security culture in real work. Sessions are led by practitioners with at least 15 years in the field.

Who should attend

Managers, analysts, IT and OT professionals, and anyone leading or adopting digital and AI initiatives.

What you will learn

- Common cyber threats
- Security awareness behaviours
- Incident detection and response
- Recovery and lessons learned
- Building a security culture

5-day course outline

Day 1	**Common cyber threats**	Concepts, standards and terminology, with a diagnostic exercise to baseline the group.
Day 2	**Security awareness behaviours**	Methods and tools explained step by step, with worked examples from real operations.
Day 3	**Incident detection and response**	Hands-on practice in small groups using realistic data, cases and templates.
Day 4	**Recovery and lessons learned**	Case studies of successes and failures, and how to apply the lessons in your organisation.
Day 5	**Building a security culture**	Integration exercise, final knowledge check and a personal action plan.

10-day extended programme

Includes the full 5-day outline, plus a second week of applied work:

Day 6	**Applied workshop: Common cyber threats** — Deeper practice with your own data or site examples.
Day 7	**Applied workshop: Security awareness behaviours and incident detection and response** — Group exercises that combine methods from week one.
Day 8	**Field case study: Recovery and lessons learned** — A detailed industry case worked through from start to finish.
Day 9	**Advanced practice: Building a security culture** — Tools, templates and checklists to take back to work.
Day 10	**Assessed project and presentation** — Each delegate presents an improvement plan and completes the final assessment.
