Maintenance & Reliability

Rising demand 2029

Code	Duration	Formats	Language	Certificate
MR-108	5 or 10 days	Classroom, live online, in-house, blended	English or Arabic	Certificate of completion

A practical maintenance and reliability course covering digital twin concepts, data and models and asset performance use cases. Run as a 5-day core or 10-day extended programme, in 16 cities, live online or in-house, and fully customisable for your team.

About this course

Digital Twins for Asset Performance gives delegates a structured, practical understanding of digital twin concepts and data and models, then builds the skills to apply asset performance use cases, implementation roadmap and value measurement in real work. Sessions are led by practitioners with at least 15 years in the field.

Who should attend

Maintenance managers, planners, reliability engineers, inspection staff and asset managers.

What you will learn

- Digital twin concepts
- Data and models
- Asset performance use cases
- Implementation roadmap
- Value measurement

5-day course outline

Day 1	**Digital twin concepts**	Concepts, standards and terminology, with a diagnostic exercise to baseline the group.
Day 2	**Data and models**	Methods and tools explained step by step, with worked examples from real operations.
Day 3	**Asset performance use cases**	Hands-on practice in small groups using realistic data, cases and templates.
Day 4	**Implementation roadmap**	Case studies of successes and failures, and how to apply the lessons in your organisation.
Day 5	**Value measurement**	Integration exercise, final knowledge check and a personal action plan.

10-day extended programme

Includes the full 5-day outline, plus a second week of applied work:

Day 6	**Applied workshop: Digital twin concepts** — Deeper practice with your own data or site examples.
Day 7	**Applied workshop: Data and models and asset performance use cases** — Group exercises that combine methods from week one.
Day 8	**Field case study: Implementation roadmap** — A detailed industry case worked through from start to finish.
Day 9	**Advanced practice: Value measurement** — Tools, templates and checklists to take back to work.
Day 10	**Assessed project and presentation** — Each delegate presents an improvement plan and completes the final assessment.
