COURSE BROCHURE

Environmental Impact Assessment

Sustainability, ESG & Net Zero

Code	Duration	Formats	Language	Certificate
SU-109	**5 or 10 days**	**Classroom, live online, in-house, blended**	**English or Arabic**	**Certificate of completion**

A practical sustainability, esg and net zero course covering EIA process and legal requirements, baseline studies and screening and impact prediction and evaluation. Run as a 5-day core or 10-day extended programme, in 16 cities, live online or in-house, and fully customisable for your team.

About this course

Environmental Impact Assessment gives delegates a structured, practical understanding of EIA process and legal requirements and baseline studies and screening, then builds the skills to apply impact prediction and evaluation, mitigation and management plans and public consultation and review in real work. Sessions are led by practitioners with at least 15 years in the field.

Who should attend

Sustainability, HSE, finance, strategy and reporting professionals, and managers responsible for ESG and climate targets.

What you will learn

- EIA process and legal requirements
- Baseline studies and screening
- Impact prediction and evaluation
- Mitigation and management plans
- Public consultation and review

5-day course outline

Day 1	**EIA process and legal requirements**	Concepts, standards and terminology, with a diagnostic exercise to baseline the group.
Day 2	**Baseline studies and screening**	Methods and tools explained step by step, with worked examples from real operations.
Day 3	**Impact prediction and evaluation**	Hands-on practice in small groups using realistic data, cases and templates.
Day 4	**Mitigation and management plans**	Case studies of successes and failures, and how to apply the lessons in your organisation.
Day 5	**Public consultation and review**	Integration exercise, final knowledge check and a personal action plan.

10-day extended programme

Includes the full 5-day outline, plus a second week of applied work:

Day 6	**Applied workshop: EIA process and legal requirements** — Deeper practice with your own data or site examples.
Day 7	**Applied workshop: Baseline studies and screening and impact prediction and evaluation** — Group exercises that combine methods from week one.
Day 8	**Field case study: Mitigation and management plans** — A detailed industry case worked through from start to finish.
Day 9	**Advanced practice: Public consultation and review** — Tools, templates and checklists to take back to work.
Day 10	**Assessed project and presentation** — Each delegate presents an improvement plan and completes the final assessment.

Upcoming classroom dates

More dates, cities and live online sessions on request.
