A practical finance and accounting course covering reading the income statement, balance sheet and cash flow, profitability, liquidity and solvency ratios and cash flow and working capital analysis. Run as a 5-day core or 10-day extended programme, in 16 cities, live online or in-house, and fully customisable for your team.

About this course

Financial Analysis and Reporting gives delegates a structured, practical understanding of reading the income statement, balance sheet and cash flow and profitability, liquidity and solvency ratios, then builds the skills to apply cash flow and working capital analysis, management and board performance reporting and company case studies and benchmarking in real work. Sessions are led by practitioners with at least 15 years in the field.

What you will learn

- Reading the income statement, balance sheet and cash flow
- Profitability, liquidity and solvency ratios
- Cash flow and working capital analysis
- Management and board performance reporting
- Company case studies and benchmarking

Who should attend

Accountants, finance managers, auditors, analysts and non-finance managers who own budgets.

5-day course outline

Day 1	**Reading the income statement, balance sheet and cash flow**	Concepts, standards and terminology, with a diagnostic exercise to baseline the group.
Day 2	**Profitability, liquidity and solvency ratios**	Methods and tools explained step by step, with worked examples from real operations.
Day 3	**Cash flow and working capital analysis**	Hands-on practice in small groups using realistic data, cases and templates.
Day 4	**Management and board performance reporting**	Case studies of successes and failures, and how to apply the lessons in your organisation.
Day 5	**Company case studies and benchmarking**	Integration exercise, final knowledge check and a personal action plan.

10-day extended programme

Includes the full 5-day outline, plus a second week of applied work:

Day 6	**Applied workshop: Reading the income statement, balance sheet and cash flow** — Deeper practice with your own data or site examples.
Day 7	**Applied workshop: Profitability, liquidity and solvency ratios and cash flow and working capital analysis** — Group exercises that combine methods from week one.
Day 8	**Field case study: Management and board performance reporting** — A detailed industry case worked through from start to finish.
Day 9	**Advanced practice: Company case studies and benchmarking** — Tools, templates and checklists to take back to work.
Day 10	**Assessed project and presentation** — Each delegate presents an improvement plan and completes the final assessment.
