COURSE BROCHURE

Incident Investigation and Root Cause Analysis

Health, Safety & Environment

Most demanded

Code	Duration	Formats	Language	Certificate
HS-102	5 or 10 days	Classroom, live online, in-house, blended	English or Arabic	Certificate of completion

A practical health, safety and environment course covering incident causation models, evidence collection and interviews and root cause methods: 5 Whys, fishbone, TapRooT-style analysis. Run as a 5-day core or 10-day extended programme, in 16 cities, live online or in-house, and fully customisable for your team.

About this course

Incident Investigation and Root Cause Analysis gives delegates a structured, practical understanding of incident causation models and evidence collection and interviews, then builds the skills to apply root cause methods: 5 Whys, fishbone, TapRooT-style analysis, corrective and preventive actions and reporting and learning in real work. Sessions are led by practitioners with at least 15 years in the field.

What you will learn

- Incident causation models
- Evidence collection and interviews
- Root cause methods: 5 Whys, fishbone, TapRooT-style analysis
- Corrective and preventive actions
- Reporting and learning

Who should attend

HSE professionals, supervisors, engineers, auditors and line managers responsible for safe operations.

5-day course outline

Day 1	**Incident causation models**	Concepts, standards and terminology, with a diagnostic exercise to baseline the group.
Day 2	**Evidence collection and interviews**	Methods and tools explained step by step, with worked examples from real operations.
Day 3	**Root cause methods: 5 Whys, fishbone, TapRooT-style analysis**	Hands-on practice in small groups using realistic data, cases and templates.
Day 4	**Corrective and preventive actions**	Case studies of successes and failures, and how to apply the lessons in your organisation.
Day 5	**Reporting and learning**	Integration exercise, final knowledge check and a personal action plan.

10-day extended programme

Includes the full 5-day outline, plus a second week of applied work:

Day 6	**Applied workshop: Incident causation models** — Deeper practice with your own data or site examples.
Day 7	**Applied workshop: Evidence collection and interviews and root cause methods: 5 Whys, fishbone, TapRooT-style analysis** — Group exercises that combine methods from week one.
Day 8	**Field case study: Corrective and preventive actions** — A detailed industry case worked through from start to finish.
Day 9	**Advanced practice: Reporting and learning** — Tools, templates and checklists to take back to work.
Day 10	**Assessed project and presentation** — Each delegate presents an improvement plan and completes the final assessment.
