COURSE BROCHURE

Forensic Accounting and Fraud Detection

Finance & Accounting

Code	Duration	Formats	Language	Certificate
FA-109	**5 or 10 days**	**Classroom, live online, in-house, blended**	**English or Arabic**	**Certificate of completion**

A practical finance and accounting course covering where AI adds value in finance, automating close, reconciliations and reporting with RPA and AI-driven forecasting and analytics. Run as a 5-day core or 10-day extended programme, in 16 cities, live online or in-house, and fully customisable for your team.

About this course

Forensic Accounting and Fraud Detection gives delegates a structured, practical understanding of where AI adds value in finance and automating close, reconciliations and reporting with RPA, then builds the skills to apply AI-driven forecasting and analytics, controls and audit over automated processes and building a finance automation roadmap in real work. Sessions are led by practitioners with at least 15 years in the field.

What you will learn

- Where AI adds value in finance
- Automating close, reconciliations and reporting with RPA
- AI-driven forecasting and analytics
- Controls and audit over automated processes
- Building a finance automation roadmap

Who should attend

Accountants, finance managers, auditors, analysts and non-finance managers who own budgets.

5-day course outline

Day 1	**Where AI adds value in finance**	Concepts, standards and terminology, with a diagnostic exercise to baseline the group.
Day 2	**Automating close, reconciliations and reporting with RPA**	Methods and tools explained step by step, with worked examples from real operations.
Day 3	**AI-driven forecasting and analytics**	Hands-on practice in small groups using realistic data, cases and templates.
Day 4	**Controls and audit over automated processes**	Case studies of successes and failures, and how to apply the lessons in your organisation.
Day 5	**Building a finance automation roadmap**	Integration exercise, final knowledge check and a personal action plan.

10-day extended programme

Includes the full 5-day outline, plus a second week of applied work:

Day 6	**Applied workshop: Where AI adds value in finance** — Deeper practice with your own data or site examples.
Day 7	**Applied workshop: Automating close, reconciliations and reporting with RPA and AI-driven forecasting and analytics** — Group exercises that combine methods from week one.
Day 8	**Field case study: Controls and audit over automated processes** — A detailed industry case worked through from start to finish.
Day 9	**Advanced practice: Building a finance automation roadmap** — Tools, templates and checklists to take back to work.
Day 10	**Assessed project and presentation** — Each delegate presents an improvement plan and completes the final assessment.

Upcoming classroom dates

More dates, cities and live online sessions on request.
