COURSE BROCHURE

Lean Six Sigma Black Belt

Quality & Operational Excellence

Code	Duration	Formats	Language	Certificate
QE-107	**5 or 10 days**	**Classroom, live online, in-house, blended**	**English or Arabic**	**Certificate of completion**

A practical quality and operational excellence course covering leading Black Belt projects, advanced statistical analysis and design of experiments. Run as a 5-day core or 10-day extended programme, in 16 cities, live online or in-house, and fully customisable for your team.

About this course

Lean Six Sigma Black Belt gives delegates a structured, practical understanding of leading Black Belt projects and advanced statistical analysis, then builds the skills to apply design of experiments, change leadership for improvement and control and handover in real work. Sessions are led by practitioners with at least 15 years in the field.

Who should attend

Quality managers, auditors, process owners, improvement leads and operations managers.

What you will learn

- Leading Black Belt projects
- Advanced statistical analysis
- Design of experiments
- Change leadership for improvement
- Control and handover

5-day course outline

Day 1	**Leading Black Belt projects**	Concepts, standards and terminology, with a diagnostic exercise to baseline the group.
Day 2	**Advanced statistical analysis**	Methods and tools explained step by step, with worked examples from real operations.
Day 3	**Design of experiments**	Hands-on practice in small groups using realistic data, cases and templates.
Day 4	**Change leadership for improvement**	Case studies of successes and failures, and how to apply the lessons in your organisation.
Day 5	**Control and handover**	Integration exercise, final knowledge check and a personal action plan.

10-day extended programme

Includes the full 5-day outline, plus a second week of applied work:

Day 6	**Applied workshop: Leading Black Belt projects** — Deeper practice with your own data or site examples.
Day 7	**Applied workshop: Advanced statistical analysis and design of experiments** — Group exercises that combine methods from week one.
Day 8	**Field case study: Change leadership for improvement** — A detailed industry case worked through from start to finish.
Day 9	**Advanced practice: Control and handover** — Tools, templates and checklists to take back to work.
Day 10	**Assessed project and presentation** — Each delegate presents an improvement plan and completes the final assessment.

Upcoming classroom dates

More dates, cities and live online sessions on request.
