Digital, AI & Cybersecurity

Code	Duration	Formats	Language	Certificate
DT-106	**5 or 10 days**	**Classroom, live online, in-house, blended**	**English or Arabic**	**Certificate of completion**

A practical digital, ai and cybersecurity course covering ISO 27001 structure and requirements, information security risk assessment and annex A controls. Run as a 5-day core or 10-day extended programme, in 16 cities, live online or in-house, and fully customisable for your team.

About this course

Information Security Management (ISO 27001) gives delegates a structured, practical understanding of ISO 27001 structure and requirements and information security risk assessment, then builds the skills to apply annex A controls, implementing an ISMS and internal audit and certification in real work. Sessions are led by practitioners with at least 15 years in the field.

What you will learn

- ISO 27001 structure and requirements
- Information security risk assessment
- Annex A controls
- Implementing an ISMS
- Internal audit and certification

Who should attend

Managers, analysts, IT and OT professionals, and anyone leading or adopting digital and AI initiatives.

5-day course outline

Day 1	**ISO 27001 structure and requirements**	Concepts, standards and terminology, with a diagnostic exercise to baseline the group.
Day 2	**Information security risk assessment**	Methods and tools explained step by step, with worked examples from real operations.
Day 3	**Annex A controls**	Hands-on practice in small groups using realistic data, cases and templates.
Day 4	**Implementing an ISMS**	Case studies of successes and failures, and how to apply the lessons in your organisation.
Day 5	**Internal audit and certification**	Integration exercise, final knowledge check and a personal action plan.

10-day extended programme

Includes the full 5-day outline, plus a second week of applied work:

Day 6	**Applied workshop: ISO 27001 structure and requirements** — Deeper practice with your own data or site examples.
Day 7	**Applied workshop: Information security risk assessment and annex A controls** — Group exercises that combine methods from week one.
Day 8	**Field case study: Implementing an ISMS** — A detailed industry case worked through from start to finish.
Day 9	**Advanced practice: Internal audit and certification** — Tools, templates and checklists to take back to work.
Day 10	**Assessed project and presentation** — Each delegate presents an improvement plan and completes the final assessment.
