COURSE BROCHURE

Leading in the Age of AI

Leadership & Management

Rising demand 2027

Code	Duration	Formats	Language	Certificate
LM-109	5 or 10 days	Classroom, live online, in-house, blended	English or Arabic	Certificate of completion

A practical leadership and management course covering how AI changes work, roles and decisions, leading AI adoption responsibly and human and AI collaboration models. Run as a 5-day core or 10-day extended programme, in 16 cities, live online or in-house, and fully customisable for your team.

About this course

Leading in the Age of AI gives delegates a structured, practical understanding of how AI changes work, roles and decisions and leading AI adoption responsibly, then builds the skills to apply human and AI collaboration models, upskilling teams for AI and governing risk, ethics and data in real work. Sessions are led by practitioners with at least 15 years in the field.

What you will learn

- How AI changes work, roles and decisions
- Leading AI adoption responsibly
- Human and AI collaboration models
- Upskilling teams for AI
- Governing risk, ethics and data

Who should attend

Managers, heads of department, team leaders and high-potential staff preparing for broader leadership roles.

5-day course outline

Day 1	**How AI changes work, roles and decisions**	Concepts, standards and terminology, with a diagnostic exercise to baseline the group.
Day 2	**Leading AI adoption responsibly**	Methods and tools explained step by step, with worked examples from real operations.
Day 3	**Human and AI collaboration models**	Hands-on practice in small groups using realistic data, cases and templates.
Day 4	**Upskilling teams for AI**	Case studies of successes and failures, and how to apply the lessons in your organisation.
Day 5	**Governing risk, ethics and data**	Integration exercise, final knowledge check and a personal action plan.

10-day extended programme

Includes the full 5-day outline, plus a second week of applied work:

Day 6	**Applied workshop: How AI changes work, roles and decisions** — Deeper practice with your own data or site examples.
Day 7	**Applied workshop: Leading AI adoption responsibly and human and AI collaboration models** — Group exercises that combine methods from week one.
Day 8	**Field case study: Upskilling teams for AI** — A detailed industry case worked through from start to finish.
Day 9	**Advanced practice: Governing risk, ethics and data** — Tools, templates and checklists to take back to work.
Day 10	**Assessed project and presentation** — Each delegate presents an improvement plan and completes the final assessment.
