COURSE BROCHURE

Permit to Work Systems

Health, Safety & Environment

Most demanded

Code	Duration	Formats	Language	Certificate
HS-103	5 or 10 days	Classroom, live online, in-house, blended	English or Arabic	Certificate of completion

A practical health, safety and environment course covering permit to work principles, permit types and hazards and isolation and lock-out tag-out. Run as a 5-day core or 10-day extended programme, in 16 cities, live online or in-house, and fully customisable for your team.

About this course

Permit to Work Systems gives delegates a structured, practical understanding of permit to work principles and permit types and hazards, then builds the skills to apply isolation and lock-out tag-out, roles, responsibilities and handover and auditing permit systems in real work. Sessions are led by practitioners with at least 15 years in the field.

What you will learn

- Permit to work principles
- Permit types and hazards
- Isolation and lock-out tag-out
- Roles, responsibilities and handover
- Auditing permit systems

Who should attend

HSE professionals, supervisors, engineers, auditors and line managers responsible for safe operations.

5-day course outline

Day 1	**Permit to work principles**	Concepts, standards and terminology, with a diagnostic exercise to baseline the group.
Day 2	**Permit types and hazards**	Methods and tools explained step by step, with worked examples from real operations.
Day 3	**Isolation and lock-out tag-out**	Hands-on practice in small groups using realistic data, cases and templates.
Day 4	**Roles, responsibilities and handover**	Case studies of successes and failures, and how to apply the lessons in your organisation.
Day 5	**Auditing permit systems**	Integration exercise, final knowledge check and a personal action plan.

10-day extended programme

Includes the full 5-day outline, plus a second week of applied work:

Day 6	**Applied workshop: Permit to work principles** — Deeper practice with your own data or site examples.
Day 7	**Applied workshop: Permit types and hazards and isolation and lock-out tag-out** — Group exercises that combine methods from week one.
Day 8	**Field case study: Roles, responsibilities and handover** — A detailed industry case worked through from start to finish.
Day 9	**Advanced practice: Auditing permit systems** — Tools, templates and checklists to take back to work.
Day 10	**Assessed project and presentation** — Each delegate presents an improvement plan and completes the final assessment.

Upcoming classroom dates

More dates, cities and live online sessions on request.

Dates	City	Length	Fee per delegate
