COURSE BROCHURE

Pipeline Integrity Management

Oil, Gas & Petrochemicals

Most demanded

Code	Duration	Formats	Language	Certificate
OG-105	5 or 10 days	Classroom, live online, in-house, blended	English or Arabic	Certificate of completion

A practical oil, gas and petrochemicals course covering pipeline threats and failure modes, integrity management programmes and standards and in-line inspection and direct assessment. Run as a 5-day core or 10-day extended programme, in 16 cities, live online or in-house, and fully customisable for your team.

About this course

Pipeline Integrity Management gives delegates a structured, practical understanding of pipeline threats and failure modes and integrity management programmes and standards, then builds the skills to apply in-line inspection and direct assessment, defect assessment and repair methods and risk-based integrity planning in real work. Sessions are led by practitioners with at least 15 years in the field.

What you will learn

- Pipeline threats and failure modes
- Integrity management programmes and standards
- In-line inspection and direct assessment
- Defect assessment and repair methods
- Risk-based integrity planning

Who should attend

Engineers, operators, supervisors and technical staff in upstream, midstream, refining and petrochemical operations.

5-day course outline

Day 1	**Pipeline threats and failure modes**	Concepts, standards and terminology, with a diagnostic exercise to baseline the group.
Day 2	**Integrity management programmes and standards**	Methods and tools explained step by step, with worked examples from real operations.
Day 3	**In-line inspection and direct assessment**	Hands-on practice in small groups using realistic data, cases and templates.
Day 4	**Defect assessment and repair methods**	Case studies of successes and failures, and how to apply the lessons in your organisation.
Day 5	**Risk-based integrity planning**	Integration exercise, final knowledge check and a personal action plan.

10-day extended programme

Includes the full 5-day outline, plus a second week of applied work:

Day 6	**Applied workshop: Pipeline threats and failure modes** — Deeper practice with your own data or site examples.
Day 7	**Applied workshop: Integrity management programmes and standards and in-line inspection and direct assessment** — Group exercises that combine methods from week one.
Day 8	**Field case study: Defect assessment and repair methods** — A detailed industry case worked through from start to finish.
Day 9	**Advanced practice: Risk-based integrity planning** — Tools, templates and checklists to take back to work.
Day 10	**Assessed project and presentation** — Each delegate presents an improvement plan and completes the final assessment.

Upcoming classroom dates

More dates, cities and live online sessions on request.

Dates	City	Length	Fee per delegate
16 Nov 2026 to 20 Nov 2026	Dubai	5 days	**$2,450**
