Procurement & Supply Chain

Rising demand 2027

Code	Duration	Formats	Language	Certificate
SC-107	5 or 10 days	Classroom, live online, in-house, blended	English or Arabic	Certificate of completion

A practical procurement and supply chain course covering types of supply chain risk, resilience strategies and redundancy and supply chain mapping. Run as a 5-day core or 10-day extended programme, in 16 cities, live online or in-house, and fully customisable for your team.

About this course

Supply Chain Resilience and Risk gives delegates a structured, practical understanding of types of supply chain risk and resilience strategies and redundancy, then builds the skills to apply supply chain mapping, business continuity for supply and risk monitoring and early warning in real work. Sessions are led by practitioners with at least 15 years in the field.

Who should attend

Procurement, logistics, warehouse, contracts and supply chain professionals.

What you will learn

- Types of supply chain risk
- Resilience strategies and redundancy
- Supply chain mapping
- Business continuity for supply
- Risk monitoring and early warning

5-day course outline

Day 1	**Types of supply chain risk**	Concepts, standards and terminology, with a diagnostic exercise to baseline the group.
Day 2	**Resilience strategies and redundancy**	Methods and tools explained step by step, with worked examples from real operations.
Day 3	**Supply chain mapping**	Hands-on practice in small groups using realistic data, cases and templates.
Day 4	**Business continuity for supply**	Case studies of successes and failures, and how to apply the lessons in your organisation.
Day 5	**Risk monitoring and early warning**	Integration exercise, final knowledge check and a personal action plan.

10-day extended programme

Includes the full 5-day outline, plus a second week of applied work:

Day 6	**Applied workshop: Types of supply chain risk** — Deeper practice with your own data or site examples.
Day 7	**Applied workshop: Resilience strategies and redundancy and supply chain mapping** — Group exercises that combine methods from week one.
Day 8	**Field case study: Business continuity for supply** — A detailed industry case worked through from start to finish.
Day 9	**Advanced practice: Risk monitoring and early warning** — Tools, templates and checklists to take back to work.
Day 10	**Assessed project and presentation** — Each delegate presents an improvement plan and completes the final assessment.
