COURSE BROCHURE

Quantum Computing Awareness for Leaders

Digital, AI & Cybersecurity

Rising demand 2030

Code	Duration	Formats	Language	Certificate
DT-113	5 or 10 days	Classroom, live online, in-house, blended	English or Arabic	Certificate of completion

A practical digital, ai and cybersecurity course covering quantum computing basics, potential business use cases and quantum risk to encryption. Run as a 5-day core or 10-day extended programme, in 16 cities, live online or in-house, and fully customisable for your team.

About this course

Quantum Computing Awareness for Leaders gives delegates a structured, practical understanding of quantum computing basics and potential business use cases, then builds the skills to apply quantum risk to encryption, technology timeline and preparing your organisation in real work. Sessions are led by practitioners with at least 15 years in the field.

What you will learn

- Quantum computing basics
- Potential business use cases
- Quantum risk to encryption
- Technology timeline
- Preparing your organisation

Who should attend

Managers, analysts, IT and OT professionals, and anyone leading or adopting digital and AI initiatives.

5-day course outline

Day 1	**Quantum computing basics**	Concepts, standards and terminology, with a diagnostic exercise to baseline the group.
Day 2	**Potential business use cases**	Methods and tools explained step by step, with worked examples from real operations.
Day 3	**Quantum risk to encryption**	Hands-on practice in small groups using realistic data, cases and templates.
Day 4	**Technology timeline**	Case studies of successes and failures, and how to apply the lessons in your organisation.
Day 5	**Preparing your organisation**	Integration exercise, final knowledge check and a personal action plan.

10-day extended programme

Includes the full 5-day outline, plus a second week of applied work:

Day 6	**Applied workshop: Quantum computing basics** — Deeper practice with your own data or site examples.
Day 7	**Applied workshop: Potential business use cases and quantum risk to encryption** — Group exercises that combine methods from week one.
Day 8	**Field case study: Technology timeline** — A detailed industry case worked through from start to finish.
Day 9	**Advanced practice: Preparing your organisation** — Tools, templates and checklists to take back to work.
Day 10	**Assessed project and presentation** — Each delegate presents an improvement plan and completes the final assessment.

Upcoming classroom dates

More dates, cities and live online sessions on request.
