A practical health, safety and environment course covering audit principles and types, planning and preparing an audit and inspection techniques and checklists. Run as a 5-day core or 10-day extended programme, in 16 cities, live online or in-house, and fully customisable for your team.

About this course

Safety Auditing and Inspection gives delegates a structured, practical understanding of audit principles and types and planning and preparing an audit, then builds the skills to apply inspection techniques and checklists, findings, evidence and reporting and follow-up and close-out in real work. Sessions are led by practitioners with at least 15 years in the field.

What you will learn

- Audit principles and types
- Planning and preparing an audit
- Inspection techniques and checklists
- Findings, evidence and reporting
- Follow-up and close-out

Who should attend

HSE professionals, supervisors, engineers, auditors and line managers responsible for safe operations.

5-day course outline

Day 1	**Audit principles and types**	Concepts, standards and terminology, with a diagnostic exercise to baseline the group.
Day 2	**Planning and preparing an audit**	Methods and tools explained step by step, with worked examples from real operations.
Day 3	**Inspection techniques and checklists**	Hands-on practice in small groups using realistic data, cases and templates.
Day 4	**Findings, evidence and reporting**	Case studies of successes and failures, and how to apply the lessons in your organisation.
Day 5	**Follow-up and close-out**	Integration exercise, final knowledge check and a personal action plan.

10-day extended programme

Includes the full 5-day outline, plus a second week of applied work:

Day 6	**Applied workshop: Audit principles and types** — Deeper practice with your own data or site examples.
Day 7	**Applied workshop: Planning and preparing an audit and inspection techniques and checklists** — Group exercises that combine methods from week one.
Day 8	**Field case study: Findings, evidence and reporting** — A detailed industry case worked through from start to finish.
Day 9	**Advanced practice: Follow-up and close-out** — Tools, templates and checklists to take back to work.
Day 10	**Assessed project and presentation** — Each delegate presents an improvement plan and completes the final assessment.
