COURSE BROCHURE

Upstream Oil and Gas Operations

Oil, Gas & Petrochemicals

Most demanded

Code	Duration	Formats	Language	Certificate
OG-102	**5 or 10 days**	**Classroom, live online, in-house, blended**	**English or Arabic**	**Certificate of completion**

A practical oil, gas and petrochemicals course covering petroleum geology and the hydrocarbon value chain, drilling and well completion overview and surface production facilities. Run as a 5-day core or 10-day extended programme, in 16 cities, live online or in-house, and fully customisable for your team.

About this course

Upstream Oil and Gas Operations gives delegates a structured, practical understanding of petroleum geology and the hydrocarbon value chain and drilling and well completion overview, then builds the skills to apply surface production facilities, separation, treatment and export and upstream economics and HSE in real work. Sessions are led by practitioners with at least 15 years in the field.

What you will learn

- Petroleum geology and the hydrocarbon value chain
- Drilling and well completion overview
- Surface production facilities
- Separation, treatment and export
- Upstream economics and HSE

Who should attend

Engineers, operators, supervisors and technical staff in upstream, midstream, refining and petrochemical operations.

5-day course outline

Day 1	**Petroleum geology and the hydrocarbon value chain**	Concepts, standards and terminology, with a diagnostic exercise to baseline the group.
Day 2	**Drilling and well completion overview**	Methods and tools explained step by step, with worked examples from real operations.
Day 3	**Surface production facilities**	Hands-on practice in small groups using realistic data, cases and templates.
Day 4	**Separation, treatment and export**	Case studies of successes and failures, and how to apply the lessons in your organisation.
Day 5	**Upstream economics and HSE**	Integration exercise, final knowledge check and a personal action plan.

10-day extended programme

Includes the full 5-day outline, plus a second week of applied work:

Day 6	**Applied workshop: Petroleum geology and the hydrocarbon value chain** — Deeper practice with your own data or site examples.
Day 7	**Applied workshop: Drilling and well completion overview and surface production facilities** — Group exercises that combine methods from week one.
Day 8	**Field case study: Separation, treatment and export** — A detailed industry case worked through from start to finish.
Day 9	**Advanced practice: Upstream economics and HSE** — Tools, templates and checklists to take back to work.
Day 10	**Assessed project and presentation** — Each delegate presents an improvement plan and completes the final assessment.

Upcoming classroom dates

More dates, cities and live online sessions on request.

Dates	City	Length	Fee per delegate
1 Nov 2026 to 5 Nov 2026	Cairo	5 days	**$2,450**
21 Dec 2026 to 25 Dec 2026	Kuala Lumpur	5 days	**$2,450**
18 Jan 2027 to 29 Jan 2027	Amsterdam	10 days	**$6,250**
7 Feb 2027 to 11 Feb 2027	Riyadh	5 days	**$2,450**
14 Mar 2027 to 18 Mar 2027	Riyadh	5 days	**$2,450**

Fees per delegate (2026 to 2027)

Format	5 days	10 days
Classroom: Dubai, Istanbul, Cairo, Kuala Lumpur	**$2,450**	**$4,450**
Classroom: London, Europe, Singapore	**$3,450**	**$6,250**
Live online	**$1,450**	**$2,650**
In-house, group of up to 15	**From $12,900**	**From $23,500**

Classroom fees include tuition, materials, lunch and refreshments, and a certificate. 10% group saving for 3 delegates, 15% for 5 or more.

Tailored to your team

Change the level, language, length (1 to 20 days) and format, add topics from other courses or entirely new topics, and include your own case studies, site visits or exam preparation. Build it online for an instant indicative fee.
