# Water Management and Desalination

Sustainability, ESG & Net Zero

Rising demand 2029

| Code | Duration | Formats | Language | Certificate |
|---|---|---|---|---|
| **SU-110** | **5 or 10 days** | **Classroom, live online, in-house, blended** | **English or Arabic** | **Certificate of completion** |

A practical sustainability, esg and net zero course covering water resources and demand management, desalination technologies and water treatment and reuse. Run as a 5-day core or 10-day extended programme, in 16 cities, live online or in-house, and fully customisable for your team.

## About this course

Water Management and Desalination gives delegates a structured, practical understanding of water resources and demand management and desalination technologies, then builds the skills to apply water treatment and reuse, energy and environmental impacts and water security planning in real work. Sessions are led by practitioners with at least 15 years in the field.

## Who should attend

Sustainability, HSE, finance, strategy and reporting professionals, and managers responsible for ESG and climate targets.

## What you will learn

- Water resources and demand management
- Desalination technologies
- Water treatment and reuse
- Energy and environmental impacts
- Water security planning

## 5-day course outline

| | | |
|---|---|---|
| Day 1 | **Water resources and demand management** | Concepts, standards and terminology, with a diagnostic exercise to baseline the group. |
| Day 2 | **Desalination technologies** | Methods and tools explained step by step, with worked examples from real operations. |
| Day 3 | **Water treatment and reuse** | Hands-on practice in small groups using realistic data, cases and templates. |
| Day 4 | **Energy and environmental impacts** | Case studies of successes and failures, and how to apply the lessons in your organisation. |
| Day 5 | **Water security planning** | Integration exercise, final knowledge check and a personal action plan. |

## 10-day extended programme

Includes the full 5-day outline, plus a second week of applied work:

| | |
|---|---|
| **Day 6** | **Applied workshop: Water resources and demand management** — Deeper practice with your own data or site examples. |
| **Day 7** | **Applied workshop: Desalination technologies and water treatment and reuse** — Group exercises that combine methods from week one. |
| **Day 8** | **Field case study: Energy and environmental impacts** — A detailed industry case worked through from start to finish. |
| **Day 9** | **Advanced practice: Water security planning** — Tools, templates and checklists to take back to work. |
| **Day 10** | **Assessed project and presentation** — Each delegate presents an improvement plan and completes the final assessment. |

## Upcoming classroom dates

More dates, cities and live online sessions on request.

| Dates | City | Length | Fee per delegate |
|---|---|---|---|
| 16 Nov 2026 to 27 Nov 2026 | Kuala Lumpur | 10 days | **$4,450** |
