COURSE BROCHURE

Well Integrity Management

Oil, Gas & Petrochemicals

Most demanded

Code	Duration	Formats	Language	Certificate
OG-109	5 or 10 days	Classroom, live online, in-house, blended	English or Arabic	Certificate of completion

A practical oil, gas and petrochemicals course covering well barriers and barrier philosophy, well integrity standards and life cycle and annulus pressure management. Run as a 5-day core or 10-day extended programme, in 16 cities, live online or in-house, and fully customisable for your team.

About this course

Well Integrity Management gives delegates a structured, practical understanding of well barriers and barrier philosophy and well integrity standards and life cycle, then builds the skills to apply annulus pressure management, well integrity testing and monitoring and well integrity management systems in real work. Sessions are led by practitioners with at least 15 years in the field.

What you will learn

- Well barriers and barrier philosophy
- Well integrity standards and life cycle
- Annulus pressure management
- Well integrity testing and monitoring
- Well integrity management systems

Who should attend

Engineers, operators, supervisors and technical staff in upstream, midstream, refining and petrochemical operations.

5-day course outline

Day 1	**Well barriers and barrier philosophy**	Concepts, standards and terminology, with a diagnostic exercise to baseline the group.
Day 2	**Well integrity standards and life cycle**	Methods and tools explained step by step, with worked examples from real operations.
Day 3	**Annulus pressure management**	Hands-on practice in small groups using realistic data, cases and templates.
Day 4	**Well integrity testing and monitoring**	Case studies of successes and failures, and how to apply the lessons in your organisation.
Day 5	**Well integrity management systems**	Integration exercise, final knowledge check and a personal action plan.

10-day extended programme

Includes the full 5-day outline, plus a second week of applied work:

Day 6	**Applied workshop: Well barriers and barrier philosophy** — Deeper practice with your own data or site examples.
Day 7	**Applied workshop: Well integrity standards and life cycle and annulus pressure management** — Group exercises that combine methods from week one.
Day 8	**Field case study: Well integrity testing and monitoring** — A detailed industry case worked through from start to finish.
Day 9	**Advanced practice: Well integrity management systems** — Tools, templates and checklists to take back to work.
Day 10	**Assessed project and presentation** — Each delegate presents an improvement plan and completes the final assessment.

Upcoming classroom dates

More dates, cities and live online sessions on request.

Dates	City	Length	Fee per delegate
15 Nov 2026 to 19 Nov 2026	Cairo	5 days	**$2,450**
